**General Index Vol. 21, 2004 (Nos. 1-4)**

---

**Crop production.**

Variation on hydraulic conductivity of saturated soils related to wastes containing sodium	1	1-11
Stock plant shading and growth time of lateral shoots on the viability of <i>Annona muricata</i> L. explants	1	12-18
Agronomic characterization of 20 cultivars of mungbean, <i>Vigna radiate</i> (L.) Wilczek during three seasons, in Maracay, Aragua state, Venezuela.	1	19-35
Variation of foliar concentration of some nutrients in guava ( <i>Psidium guajava</i> L.) and its relationship with crop yield	1	36-50
Cell wall thickness of <i>Rhodotorula rubra</i> exposed to osmotic and heat stress	1	51-58

**Animal production.**

Growth performance of West African sheep on a limited grazing system in Venezuela	1	59-67
---	---	-------

**Food technology.**

Valuation of a commercial analogous of mayonnaise available life using the Q10 acceleration factor	1	68-83
--	---	-------

**Socioeconomy.**

Rural participative diagnostic of two communities in La Cañada de Urdaneta county, Zulia State.	1	84-95
---	---	-------

**Crop production.**

Detection of viral diseases affecting sweet pepper in Counties Iribarren, Jiménez and Torres of Lara State, Venezuela, using ELISA technique.	2	105-115
Aspects of floral biology in papaya ( <i>Carica papaya</i> L.) cv. «Cartagena roja» in Lara state, Venezuela.	2	116-125
Quality of soil organic matter under different management practices in a tropical acid soil.	2	126-140

---

## **General Index Vol. 21, 2004 (Nos. 1-4)**

---

Extraction of N, P, K, Ca and Mg by cantaloupe plants ( <i>Cucumis melo</i> L.) packstar hybrid under Tarabana conditions, Lara state.	2	141-154
<b>Food technology.</b>		
Technical note: A new method for the isolation of betalaines by HPTLC.	2	155-160
Technical note: Evaluation functional and rheological of flours from Coroba ( <i>Jessenia polycarpa</i> Karst)	2	161-171
<b>Socioeconomy.</b>		
The small farmers and its participation in the process of agricultural commercialization.	2	172-185
Analysis of the distribution of red meat by the butcheries in the urban area of Maracaibo.	2	186-199
<b>Crop production.</b>		
Some aspects of the floral biology of <i>Passiflora cincinnata</i> Mast	3	211-220
Effect of sources and dose of nitrogen on the production and quality of the fruit of the banana tree ( <i>Musa</i> group AAA, subgroup Cavendish "Gran Enano" clon) in the alluvial plain of the Motatán River	3	221-232
Xanthomonas albilineans causal agent of sugarcane ( <i>Saccharum</i> sp) leaf scald disease in states Lara and Yaracuy	3	233-245
Productivity changes in a degraded Ultisol of the Machiques Colón, by the application of cattle dung	3	246-259
Micromorphological, morphological, mphysical and chemical aspects of the the Typic Haplargids on the Maracaibo plateau	3	260-267
<b>Animal production.</b>		
Extraction and precipitation of the soluble proteins of dwarf elephant grass ( <i>Pennisetum purpureum</i> Schum cv. Mott)	3	268-279

---

**General Index Vol. 21, 2004 (Nos. 1-4)**

---

**Food technology.**

Optimization of the Extraction in solid phase of Organophosphorus Pesticide Residues in Drinking Water, Using Graphitized Carbon Black Cartridges 3 280-289

Physiochemical changes in two sweet liquors aromatized with orange and tangerine 3 290-301

**Crop production.**

Cattle dung effects on chemical properties of degraded ultisol in the Machiques-Colón. 4 311-321

Populations and planting systems on two soybean [*Glycine max* (L.) Merr.] cultivars of different growth habits in Portuguesa state 4 322-335

Relation of leaves numbers a flowering time and wasted at reproductive cycle with bunch weight in plantain bunch plants under black Sigatoka attack 4 336-343

The effect of seed storage and post seeding light on germination and morphological aspects of young nispero seedlings (*Manilkara zapota* (Van Royen) (Jacq) Gill) 4 344-353

Reproductive capacity: Formation of fruits and seeds in *Passiflora edulis f. flavicarpa* Degener and *Passiflora cincinnata* Mast 4 354-362

Erosion control on soil with shrubby endemic forage legumes from the Canary islands 4 363-373

Assessment of *Rhizoctonia solani* inoculation techniques on rice germplasm on the field. 4 374-384

Humification index and phytotoxicity test in organic wastes potentially agricultural 4 385-397

**Socioeconomy.**

Formulation of strategic lineament for the development of a rural community, based on a participative methodology 4 398-414
