

Crop production

Morphologic characterization of two species of <i>Psidium</i> . I. Canopy, stem and leaves	1	1-25
Evaluation of different herbicides on weeds control, development, yield and relative net benefit of cassava crop <i>Manihot esculenta</i> Crantz under agro ecological conditions at Maracaibo plain	1	26-42
Nutritional quality evaluation of seven ecotypes of <i>Leucaena macrophylla</i> (Benth.) in a Leached Red Ferralitic Soil	1	43-67

Food technology

Bromatological evaluation of tune <i>Opuntia elatior</i> Miller (Cactaceae)	1	68-80
Physical- chemical characterization of the fruit and pseudofruit of <i>Anacardium occidentale</i> L. (cashew) under unirrigated land conditions	1	81-94
Analytical data of seed gum from <i>Leucaena leucocephala</i>	1	95-108

Socioeconomy

Characterization of management process applied in the plantain production system in the South area of Maracaibo Lake, Venezuela	1	109-130
The agricultural financial supply in Lara state	1	131-159
Productive processes of the zulian poultry industry: Feeding, fattening and slaughter phases	1	160-184

Crop production

In vitro formation of purple garlic (<i>Allium sativum</i> L.) bulb	2	197-210
Evaluation of an equipment of time domain reflectometry (TDR) for moisture registration in a loam soil	2	211-222
Farmer's perception on the integrated pest management in tomato (<i>Lycopersicum esculentum</i> Mill.) crop	2	223-242
Growth and N-P-K removal in chicken manure fertilized bell pepper (<i>Capsicum annuum</i> L.) plants in Quíbor, Lara State, Venezuela	2	243-260

Guadua (<i>Guadua angustifolia</i> Kunth) and bamboo (<i>Bambusa vulgaris</i> Wendland) plantations in San Javier, Yaracuy state, Venezuela. I. Climate and litterfall	2	261-285
--	---	---------

Food technology

Effect of the potassium fertilizer on the chemical quality of tomato (<i>Lycopersicon esculentum</i> Mill.) fruits stored less than two temperatures	2	286-302
---	---	---------

Physical-chemical characterization of dairy milk creams	2	303-317
---	---	---------

Pectin extraction from plantain (<i>Musa</i> AAB, sub-group plantain) peel, Harton clone	2	318-333
---	---	---------

Socioeconomy

Potential market of by-products of (<i>Cajanus cajan</i> L. Millsp.) for human consumption in Maracaibo	2	334-363
--	---	---------

Aloe's (<i>Aloe vera</i> L.) market in Falcon state	2	364-392
--	---	---------

Crop production

Technical Note:

Rooting on acerola (<i>Malpighia glabra</i> L. and <i>M. emarginata</i> Sessé & Moc. ex D.C.) stakes	3	405-420
---	---	---------

Irrigation moment and calcium nitrate effect on tomato (<i>Lycopersicon esculentum</i> L.) plants	3	421-439
--	---	---------

Effect of green manure and <i>Trichoderma harzianum</i> on sclerotia population and incidence of <i>Macrophomina phaseolina</i> on sesame	3	440-454
---	---	---------

Behavior of five fungal pathologies in 14 sugar cane cultivars (<i>Saccharum</i> spp.) with forage aims in Yaracuy state, Venezuela	3	455-469
--	---	---------

Response of plantain plants (<i>Musa</i> AAB cv. Horn) to inoculation with indigenous and introduced arbuscular mycorrhizal fungi (AMF) under field conditions	3	470-495
---	---	---------

Technical Note:

Mineral nutrition assessment in young sapodilla (<i>Manilkara achras</i> Miller Fosberg) trees growing on containers	3	496-506
---	---	---------

Effect of calcium sulfate and organic matter applying on the incidence of brown rot of guava (<i>Psidium guajava</i> L.)	3	507-524
Histological alterations caused by <i>Brevipalpus phoenicis</i> (Geijskes) to peduncles and sepals of <i>Psidium guajava</i> L.	3	525-549
Food technology		
Extraction and cleanup method optimization and validation in solid phase for determining organophosphorus insecticides on green onion (<i>Allium fistulosum</i> L.) and coriander (<i>Coriandrum sativum</i> L.)	3	550-569
Oxidation during the induction of somatic embryogenesis with immature male flowers of Grand Nain (<i>Musa</i> AAA)	3	570-588
Crop production.		
On farm evaluation of effect of high plant density on plantain (<i>Musa</i> AAB cv. Subgroup Horn plantain), Obispo County, Barinas state, Venezuela	4	603-616
Effect of germination promoters and substrates in the development of papayo seedlings	4	617-635
Effect of induced defoliation on plantain (<i>Musa</i> AAB Hartón) productivity and the incidence of Black Sigatoka (<i>Mycosphaerella fijiensis</i> Morelet)	4	636-648
Carbohydrate content in autochthonous varieties of <i>Phaseolus vulgaris</i> grown in Venezuela	4	649-664
Animal production.		
Dynamic of early fermentation of <i>Albizia lebbek</i> silage	4	665-673
Effect of earthworm (<i>Eisenia</i> spp) meal inclusion on dressing and physical-chemical characteristics of quail meat (<i>Coturnix coturnix japonica</i>)	4	674-684
