

**Crop production**

- Reproductive structures and the oil palm (*Elaeis guineensis* Jacq.) pollination by insects in three commercial fields in Zulia state, Venezuela 1 1-22
- Evaluation of nitrates and nitrites leached under an intensive grazing system using nitrogen fertilizer 1 23-38

**Animal production**

- Effect of grazing pressure and strategic supplementation on tannergrass (*Brachiaria arrecta*) on dry matter composition before and after grazing time 1 39—58
- Bacteriological quality of raw goat milk produced in Faría parish, Miranda Municipality, Zulia state, Venezuela 1 59-77
- Nutritive value of maralfalfa Grass (*Pennisetm purpureum* x *Pennisetum glaucum*) under defoliation conditions 1 78-87

**Food technology**

- Stability of bioprocessed and ready-to-eat *Phaseolus vulgaris* L. 1 88-106
- Effect of the storage strategy on the nutritional quality of red worm meal (*Eisenia* spp.) to medium term 1 107-128

**2 Crop production**

- Cultivar and plant spacing effects on physical–chemical characteristics of muskmelon (*Cucumis melo* L.) fruit 2 141-158
- Effects of substrate and plant spacing on growth of pepper (*Capsicum annum* L.) plants in hydroponic system without cover 2 159-178
- Begomovirus detection on tomato crop grown in Venezuelan Andes by PCR 2 179-195
- Effect of fruit ripening, seed scarification and temperature on seedling emergence of *Syagrus stenopetala* Burret 2 196-211

## *General index Vol. 25, 2008 (Nos. 1-4)*

---

Effect of the N6-benzylaminopurine on in vitro multiplication of cocoyam (*Xanthosoma sagittifolium* L. Schott) 2 212-222

### ***Food technology***

Yogurt making by using probiotics (*Bifidobacterium* spp. and *Lactobacillus acidophilus*) and Inulin 2 223-242

### ***Socioeconomy***

Economical analysis of cultivation systems with *Schizolobium parahyba* var. *amazonicum* (Huber ex Ducke) Barneby (parica) and *Ananas comosus* var. *erectifolius* (L. B. Smith) Coppus & Leal (curaua) crop at Aurora do Pará, Brazil 2 243-265

Attitude toward ecological marketing like management philosophy in the shrimp industry of Zulia state 2 266-292

### ***Crop production***

Identification and pollinating insect's population fluctuation in oil palm (*Elaeis guineensis* Jacquin) in south of Maracaibo Lake, Zulia state, Venezuela 3 305-321

Gaseous exchange effect on growth and tuberization of potato vitroplants 3 325-339

Selection of soil quality indicators in three land use types in the Coro plain, Falcon State 3 340-361

Evaluation of eleven promissory clones of potato (*Solanum tuberosum* L.) in Trujillo state. I. Growth, developing and yield 3 362-381

### ***Food technology***

Chemical characterization and mineral content in Venezuelan commercial wines 3 382-397

Solid state fermentation of the wastes generated in the wine-making industry 3 398-322

Evaluation of total polyphenols in white wine dealt with chitin 3 423-442

***Crop production***

Evaluation of organics substratum and also in combination with insecticide to capture *Opsiphanes cassina* F. adults in an oil palm (*Elaeis guineensis* Jacq.) plantation in Zulia state, Venezuela 4 455-469

Total and by organs accumulation of macronutrients in cassava (*Manihot esculenta* Crantz) plants cv 'Tempranita' at Maracaibo plain 4 470-489

Shade avoidance syndrome in *Rottboellia exaltata* and *Leptochloa filiformis* (Gramineae- Poaceae) 4 490-507

Production, powdery scab, incidence and quality of potato advanced clones 4 508-531

Agricultural land classification with soil conservation purposes in plots of horticultural use, Alto Motatán sub-basin, Mérida-Venezuela 4 532-554

***Animal production.***

Integral evaluation of fodder resources for ruminants in Trujillo state, Venezuela 4 555-582

***Food technology***

The rice bran effect on the physical-chemical and sensorial properties of wheat bread 4 583-598

Temperature effect on the rheological behavior of sapodilla (*Achras sapota* L.) pulp 4 599-612
